

Make Every Moment Count

Make every moment count and you'll be happy,
you will find true meaning in your life,
when you learn to utilize each moment,
the simple things will bring you peace of mind.

Make every moment count and be productive,
be useful in a kind and helpful way,
you will find that happiness comes easy,
and you'll be content each moment of the day.

Make moments count throughout the day,
instead of simply passing time away,
make moments count and you will find,
the secret of possessing peace of mind.

Make every moment count and life will lead you,
to a secret world you never thought you'd find,
you will find your life will be worth living,
as the whisperings of Love delight your mind.

Make every moment count and you'll be happy,
your understanding will be growing every day,
with every step you take along life's highway,
you will be helping others find their way.

Make moments count throughout the day,
instead of simply passing time away,
make moments count and you will find,
the secret of possessing peace of mind.

Make every moment count by concentrating,
on peace and joy and blessings from above,
make every moment count by making choices,
that lead you to a wondrous world of love.
