

Think of Love

Love is the power that makes the flowers grow,
Love is the reason the seasons come and go.
Love has the answers to all we need to know,
so think of Love each moment of the day.

Love fills our hearts with peace and joy and song,
Love gives life meaning when we feel we can't go on.
Love gives us comfort when we feel we all alone,
so think of Love each moment of the day.

So think of Love each moment of the day,
you will find true happiness and Love will light your way.

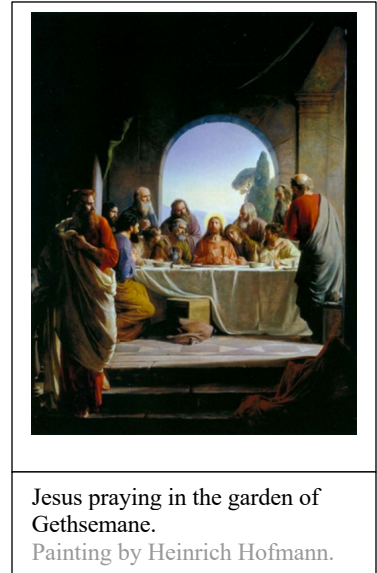

Love is what we're seeking, it's all we ever need,
Love comes into our hearts and sets our spirits free,
Love is always there for us, it's showing us the way,
so think of Love each moment each moment of the day.
