

## What is Truth?

Truth is the absolute, intelligent and principled nature of God and is demonstrated through his unalterable laws of Cause and Effect. Love, Grace and Goodness flow from this one divine source. Truth manifests itself in many different ways as it either rewards or corrects us according to our understanding of and adherence to God's spiritual laws. Truth is in exact correspondence with reality and is uncontaminated by mankind's mindless, self-serving rationalizations. It is the expression of God's perfect government of all that exists. We are empowered by God to multiply the blessings in our lives by monitoring our every thought and action to be sure we are expressing Love and compassion. To feel Love is to feel the presence of Truth. To feel the absence of Love is to feel the absence of Truth. We all eventually realize the love we receive is precisely equal to the love we give. We create a harmonious life by demonstrating Truth on a moment-to-moment basis.

### **Truth is synonymous with:**
